INSPECTION REPORT

Partial: X Complete: _____ Exploration: _____
Inspection Date & Time: 08/23/00 / 10:30 to 1:00
Date of Last Inspection: 07/27/00

Mine Name: Savage Coal Terminal County: Carbon Permit Number: ACT/007/022

Permittee and/or Operator's Name: Savage Industries, Inc.

Business Address: P. O. Box 587, Wellington, Utah 84542

Type of Mining Activity: Preparation Plant

State Officials(s): Joe Helfrich, Bill Malencik

Company Official(s): Boyd Rhodes, Dan Guy Federal Official(s): None

Weather Conditions: Sunny, 90's

Existing Acreage: Permitted-160 Disturbed-122 Regraded-___ Seeded-___ Bonded-160

Increased/Decreased: Permitted-___ Disturbed-___ Regraded-___ Seeded-___ Bonded-___

Status: Active

REVIEW OF PERMIT, PERFORMANCE STANDARDS & PERMIT CONDITION REQUIREMENTS

Instructions

- Substantiate the elements on this inspection by checking the appropriate performance standard.
 - For complete inspections provide narrative justification for any elements not fully inspected unless element is not appropriate to the site, in which case check N/A.
 - For partial inspections check only the elements evaluated.
- Document any noncompliance situation by referencing the NOV issued at the appropriate performance standard listed below.
- Reference any narratives written in conjunction with this inspection at the appropriate performance standard listed below.
- Provide a brief status report for all pending enforcement actions, permit conditions, Division Orders, and amendments.

INSPECTION REPORT
(Continuation sheet)

PERMIT NUMBER: ACT/007/022

DATE OF INSPECTION: 08/23/00

(Comments are Numbered to Correspond with Topics Listed Above)

GENERAL COMMENTS

The purpose of this inspection was to conduct a partial inspection of the facility including the pump house area located along the Price River.

2. SIGNS AND MARKERS

The perimeter markers along the road to the pump house have been a concern to the land owners as well as the permittee. Cattle continue to knock them down or they are in the way of farm equipment. Bill Malencik had historically inspected this site so I requested his input. The situation was also discussed with Dan and Boyd with the following recommendations: a) to identify the fence along the road to the pump house as a perimeter marker, and b) place markers where the road to the pump house changes direction starting at the pump house and proceeding south to the end of SAE #1.

7. COAL MINE WASTE / REFUSE PILES / IMPOUNDMENTS

Savage has reached an agreement with the Sunnyside Cogeneration facility to accept refuse material from the terminal. The amendment regarding the refuse removal, (#ACT/007/022-00E) was approved on August 10, 2000. A submittal has also been made to OSM requesting a determination of the applicability of reclamation fees along with information to support the request for a no value/fee determination. OSM acknowledged receipt of the request on August 1, 2000 in an "E" mail from Jim Krawchyk to Brent Wahlquist. I was not able to reach Jim Krawchyk but received a voice mail from him on August 31, 2000. According to Jim's voice mail, OSM is still gathering information.

18. SUPPORT FACILITIES/UTILITY INSTALLATIONS

The construction of the cross over conveyor has been completed.

Inspector's Signature: _____

Joseph C. Helfrich #1

Date September 7, 2000

Note: This inspection report does not constitute an affidavit of compliance with the regulatory program of the Division of Oil, Gas & Mining.
